## Introduction

### Purpose

The purpose of this document is to describe the requirement specification for the web site “\_\_Myanmar Refugee Crisis\_\_\_\_\_”.

The intended audience for this document is \_\_Whoever grades it\_\_

*First it is the contract between you and the client. Second it is for the developer of the site. Two primary goals are:*

- 1. Client gets a very good understanding of what you will be delivering.*
- 2. Developer has a very good understanding of what they are going to create.*

### Definitions, acronyms, and abbreviations

*Sample for the client:*

ER Diagram – a diagram to represent the data you want to save with your system

W3 Validation – refers to both Html and CSS validation tool provided by the

W3c.org. the html validator is located at:

<http://validator.w3.org/>

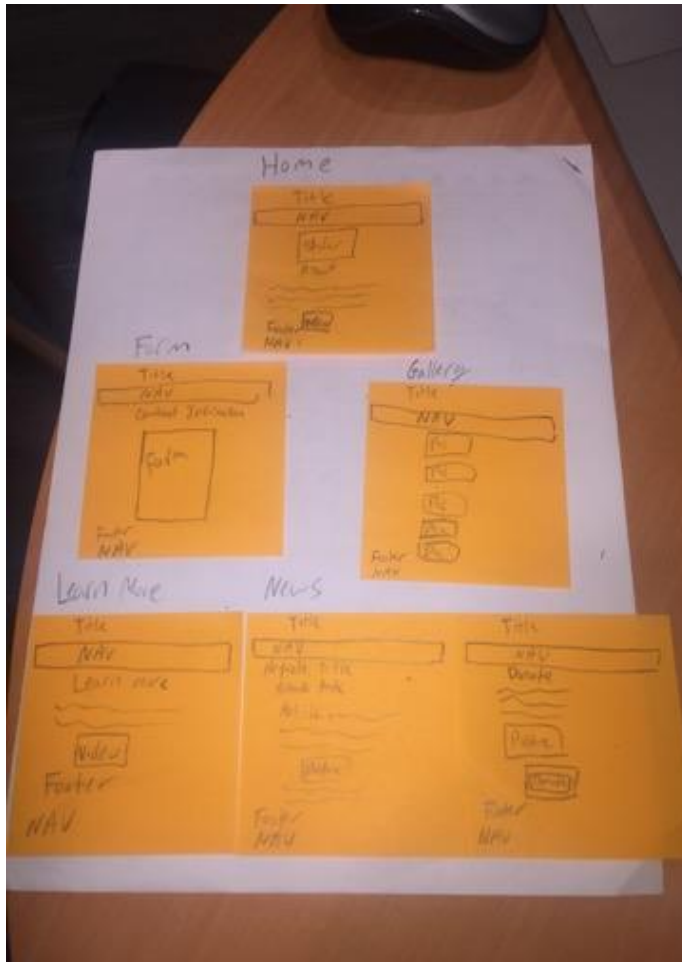

with the CSS validator located at:

<http://jigsaw.w3.org/css-validator/>

## Overall Description

The site is designed to raise awareness for the current refugee crisis going on in Myanmar right now. Its purpose is to educate people on what is going on, to try and make them care about it, and to raise money for people effected by what is happening.

## Story Board

Myanmar Refugee Crisis	Version <1.0>
	Date : 11/21

### Specific requirements

1. *You fill out* – This is where you would put the exact detail of what you want for the project. For example:
2. *Title for main page: Myanmar Refugee Crisis*
3. *Meta Description: The Rohingya people need your help*
4. *Meta Character set: UTF - 8*
